## GLASS

We are proud to introduce two new series of glass – the Mirror Based Glass Range and the Bevelled Beauty Glass Range. These new items will complement our very popular range of items mounted on removable bases including the best-selling Silver Ice, Black Onyx, Black Opal and Aspire Series. The items with removable bases are suitable for sandblasting, lasering or adding colour through direct colour printing.

The new ranges added in 2018 have proven to be very popular, in particular the heavy-weight green tinted cut glass range and the Jarrah coloured range of laser glass reflecting the hues of Western Australia.

# ARTISTIC GLASS

"In order to be irreplaceable one must always be different."  
– Coco Chanel

The Artistic Glass Collection is an eclectic range of glass that has been modified in a variety of ways to create truly unique awards.

These modifications include sandblasted strips, coloured edges or adding textured metals and mirrors to ensure the award, like its recipient, always stands out from the crowd.

# ACRYLIC

An acrylic trophy is a popular alternative to a traditional glass or crystal trophy. The perceived high value of acrylic awards make them perfect for recognizing achievement in the corporate market.

Tombstones, made of acrylic, are commonly used within the financial community, especially among investment banks, as a means of celebrating successful transactions.

These beautiful pieces allow for easy decoration and the dazzling bevelled edges will ensure that these awards will become the perennial favourite when rewarding outstanding achievement.

**GLACIER SERIES**

## CUPS

Sports trophies made in the form of cups are the oldest form of "man-made" award. Trophies made for the express purpose of commemorating an event date back to the mid 18th century.

Today, many trophies awarded to winners of sporting events take the form of a large, decorated cup. Owing to the common usage of cup-shaped trophies as prizes for the winners, a large number of national and international competitions are called "cups" such as the FIFA World Cup, Cricket or Rugby World Cup and the Melbourne Cup.

This traditional cup design continues to be refined as reflected in our range of classic Italian designed cup bowls and our nickel plated die cast cups. However, the more modern and elegant laser cut cups without handles have become increasingly popular, especially when colours have been added to contrast with the traditional cup colours of gold and silver.

## PLAQUES

Personalized timber plaques continue to be a very popular way to show someone how much they are appreciated.

Our range of timber plaques come in a range of colours, edges and finishes to meet all budgets. The range of super value timber plaques offer unbeatable value whilst our best selling seven lacquer coated piano finish plaques offer a classier alternative. The top of the range Ultra Premium Piano Finish Plaques come with rounded edges and are beautifully packaged in a silk-lined giftbox.

All of these plaques can be personalised using our range of laserable laminate (for a classic engraved result) or colour may be added using sublimation on our industry leading DynaSub plate.

For a stylish and modern look, why not consider our range of floating plaques, where the timber plaque is enhanced by floating clear acrylic or coloured glass. The acrylic or glass is raised above the timber plaque by four silver standoffs to give an elegant finish.
